AARON BONETTI

PROFILE

Self-motivated Front-end Web Development professional looking to provide unparalleled quality work in an environment that encourages growth of the craft.

PROJECTS

Hotel Shuttle Tool · 06/2019
https://shuttleappfrontend.herokuapp.com

A tool to maximize efficiency and transparency between hotels, flight crews and shuttle drivers. This tool is dynamic giving real time arrivals and departures for flight crew, limiting their wait time at the airport or hotel. Drivers can easily document pick up times which are time stamped for consistency. Drivers can also have valeted guest vehicles requested to be brought to the front of the hotel upon retrieval from the airport.
